

2009 ANNUAL GOLF DAY

OCTOBER 19, 2009
El Niguel Country Club
Laguna Niguel, California

www.acresoflove.org

*Acres of Love provides care,
love, and hope for abandoned and
HIV-positive babies and children.
Through our homes these children
receive the highest level of care,
enabling them to lead fruitful lives
and realize their full potential.*

ACRES OF LOVE

Acres of Love was founded by concerned Christian leaders in 1998 as a California based 501(c)(3) non-profit organization dedicated to the rescue and committed to the care of children who have been abandoned or orphaned as a result of HIV/AIDS in Africa. The Acres team currently operates over 20 children's homes in and around Johannesburg, South Africa; in each home, 8 to 12 children are cared for by loving house parents in a stable family environment. Every life rescued is welcomed into our family as a unique individual, and whatever is needed to realize each child's particular potential is undertaken: while some children remain in our homes to be cared for – those who are HIV positive, desperately ill, or perhaps with special needs – others are able to be adopted by loving families around the globe. Since 1998, more than 530 children have been saved from lives of abject poverty and almost certain death by Acres of Love, more than 400 children have been adopted or reunited with family, and currently 180 children, ranging in age from newborns to teenagers, reside in Acres of Love "Forever Homes" and are being nursed to health, nurtured and guided by loving adults, educated and protected while growing into responsible, productive citizens.

GOLF WITH A PURPOSE

Acres of Love raises all its funds from the private sector and relies upon contributions from individual donors, non-profit organizations and businesses as its primary source of financial support. The Acres of Love Annual Golf Day provides a simple platform to hear about the amazing and effective work that Acres of Love is doing and to participate in being part of the solution to the HIV/AIDS pandemic.

The Annual Golf Day is a very special "moment in time" where many Acres of Love support groups from around the world will come together to play golf and help raise funds for the children of Acres of Love. In preparation for the event, approximately 30 golfers and several "virtual golfers" will approach their friends, family and business associates and ask them to sponsor them. We have found that, rather than rallying to a faceless cause, "people support people", and so there is a very high response rate.

You, too, can be among those who help us save lives and build secure futures. It's easy to make a difference in the life of a child – please donate now!

THE ANNUAL GOLF DAY

The 100-Hole Golf Day format is an individual scramble format that is simple: each player plays their own ball (ergo, the individual scramble format); each player hits two shots from the tee until the ball is holed out. Players will actually complete 50 holes. Because they are playing two shots from each location, this qualifies officially as a 100-Hole format. The 100-Hole Golf Day will conclude with a Presentation Dinner. For information about attending the Presentation Dinner, please contact Toni Danchik — toni@acresoflove.org.

YOU CAN MAKE A DIFFERENCE

You have the opportunity to improve the world, one life at a time. Abject poverty, disease, myth, stigma, lack of healthcare, and ignorance combine to become a lethal force preying on the littlest and most vulnerable members of society. Few services are available for the children left behind by the HIV/AIDS pandemic in Africa. Acres of Love is an organization committed to raising the bar for the standard of orphan care in South Africa and we invite you to share their story with others.

MAKE A DONATION

There are several payment options available to make a donation to the Annual Golf Day. Donations can be made securely online, or completed donation forms can be faxed or mailed to the Acres of Love office.

OUR HOMES

Each of our homes is led by loving houseparents, where 8 to 10 babies and children are raised together as a family in a safe and nurturing environment. We currently own and operate over 20 “Forever Homes” in South Africa.

OUR COMMITMENT

Growing awareness of Acres of Love has led to an ever-increasing number of abandoned children brought to our attention. Our philosophy is to care for every child as we would for our very own — now, tomorrow, and forever.

OUR RESULTS

Due to our committed approach, children that have been abused, abandoned, and left to die are experiencing restoration that seems impossible against the staggering statistics, images, and forecasts of this desperate nation. More than 400 children have been adopted by loving families around the globe, or reunited with family, and 180 more are nurtured and protected in Acres of Love “Forever Homes” that exist because of kind and generous people like you.
