**Re: Letter Of Recommendation**

To Whom It May Concern:

The Joburg Region 3 Social Services Department has worked with Mr Tony Palmer of Acres of Love in Braynston, Johannesburg particularly on developing local networks among the various role players working with children affected or infected by HIV/AIDS.

We are very impressed with the work being undertaken by Acres of Love and believe that the lessons from their initiative will benefit and influence the quality of services being offered to HIV/AIDS Orphans in the City of Johannesburg.

We would highly recommend them for receipt of your assistance as this will ensure that more and more orphaned and vulnerable children will have an opportunity to access their excellent services.

Sincerely

Wandile Zwane  
Regional Manager: Social Services Region 3
